

# Meeting Minutes

Title: Internship Day-13

## Attendees:

Futureense Technologies – Akash Das  
Jain University – AI and DE

## Objective:

- Improve comprehension of the GROUP BY clause.

## Agenda:

- Exploring the integration of GROUP BY with the HAVING Clause.
- Examining the advantages and functions of the HAVING Clause compared to the WHERE Clause.
- Grasping the technicalities behind the implementation of GROUP BY and HAVING Clauses.

## Key Takeaways:

- The conversation will center on how to employ the GROUP BY clause in conjunction with the HAVING clause in SQL queries.
- The itinerary will encompass a thorough exploration of the reasons behind choosing the HAVING clause over the WHERE clause in specific situations.
- The demonstration will seek to elucidate the separate implementations of both the GROUP BY and HAVING clauses via a succinct PowerPoint presentation comprising approximately three slides.

## Task:

We were tasked with researching the GROUP BY and HAVING clauses and developing a PowerPoint presentation that showcases their utilization. Our assignment entails crafting around three slides to address these subjects.

## SOLUTION:

Group By
