

# Meeting Minutes

Title: Internship Day-11

Date : May 8, 2024

Time : 11:30 am

Location : Jain  
University

## Attendees:

Futureense Technologies – Akash Das  
Jain University – AI and DE

## Objective:

- Conversation about different types of JOINS and finishing any remaining tasks.

## Agenda:

- The meeting started with a recap of recent progress and addressing any related questions.
- Next, we dove into a thorough analysis of different join types, specifically inner and outer joins, and discussed their impacts on table connections.
- Lastly, tasks related to discussions 3, 8, and 40 were distributed for individual study and completion.

## Key Takeaways:

- Clear and open communication regarding work updates and questions is vital for maintaining smooth progress.
- Grasping the intricacies of inner and outer joins is pivotal in streamlining database operations and guaranteeing precise data retrieval.
- Finishing tasks discussed in meetings 3, 8, and 40 will further our continuous learning and drive project advancement.
